

## AMENDMENT

### IN THE SPECIFICATION

Please amend the 9<sup>th</sup> paragraph in page 5 of the original specification as the following. The added feature of “” is illustrated in Fig. 10 about the elements 20b, 26b and 21b, it is illustrated that the 20b (or 26b and 21b) has a shape like “8”.

The retainer device 20b has a ring-shaped elastic element 21b having a twisted protruded portion 26b inserted through the through hole 13b of the main body 10b. Thus, the ring shaped elastic element 21b and the twisted protruded portion 26b having a shape like “8”.
